Ein ♥ für Pinguine:
Zunehmende LINUX-Unterstützung

A group of fluffy penguin chicks are standing on a snowy surface. One chick in the center has its arms outstretched. To the right, there is a diagram consisting of a vertical grey line with a blue circular icon at the top. Three blue arrow-shaped boxes point towards this line, labeled 'LINUX Clients', 'LINUX Server', and 'LINUX IPCs'.

Quo vadis?

LINUX Clients

LINUX Server

LINUX IPCs

Agent vs. Agent-less?

Software-Verteilung & Managed Software

A hand in a dark suit sleeve holds a tall, clear glass of beer with a thick white head of foam. The glass is being filled from a chrome beer tap. In the background, several other taps are visible, and the scene is lit with warm, bokeh-style lights, suggesting a bar or pub environment. Three blue text boxes with white text are overlaid on the image.
