# Features vs. Enablers

Wie viele Datenbank-Typen braucht eine Lösung?

The diagram features a central white rectangular box labeled "baramundi Management Suite". To its left and right are three blue chevrons pointing outwards. Below the box are two white cylindrical database icons. The left one is labeled "Microsoft SQL Server" and the right one is labeled "Oracle". A blue double-headed vertical arrow connects the top of the SQL Server icon to the bottom of the Management Suite box. Another blue double-headed vertical arrow connects the top of the Oracle icon to the bottom of the Management Suite box. Between the two database icons is a blue arrow pointing from the Oracle icon to the SQL Server icon, labeled "Tool für Migration".

# Features vs. Enablers

Wie viele Datenbank-Typen braucht eine Lösung?

The diagram features a central white box labeled 'baramundi Management Suite' flanked by three blue chevrons pointing left and three pointing right. Below this box are two database cylinders: 'Microsoft SQL Server' on the left and 'Oracle' on the right. A blue double-headed arrow connects the BMS box to each database. To the right of the SQL Server is a blue arrow pointing left labeled 'Tool für Migration'. To the right of the Oracle is a blue arrow pointing right labeled 'bMS as a Service'.
